What's our story?

It all started in 2017. Disappointed by the slow expansion of e-mobility we created a whole new approach to electric vehicle charging. Our award winning and patented charging technology is the missing piece for mass electrification. Together with major automotive manufacturers we are currently getting our product ready to market. ChargeX was founded by passionate entrepreneurs and engineers. Our mission is a more sustainable way of transport. To make this green future happen we need your hands-on support and ideas to make our vision reality.

- Create product content and outstanding marketing material both online and offline
- Tell the story of our product and boost the conversion rate together with our sales team

- University degree in marketing, design or a comparable education – we focus on skills
- Data driven marketing approach and own responsibility to fuel our sales funnel
