

Full Time / Part Time

Software Engineering Specialist IoT & Interface Programming (f/m)

Location: Munich

What's our story?

It all started in 2017. Disappointed by the slow expansion of e-mobility we created a whole new approach to electric vehicle charging. Our award winning and patented charging technology is the missing piece for mass electrification. Together with major automotive manufacturers we are currently getting our product ready to market. ChargeX was founded by passionate entrepreneurs and engineers. Our mission is a more sustainable way of transport. To make this green future happen we need your hands-on support and ideas to make our vision reality.

What will be your job?

- Programming micro-controllers
- Interface design between hardware and software
- IoT management and integration of our charging system into a backend/monitoring system
- Time-critical implementation of new product features on your own responsibility

What do we expect from you?

- Passion about e-mobility and first practical experiences in software development
- Degree of embedded systems, informatics or a comparable education – we focus on skills
- Knowledge in Python, C++ or similar preferred
- Willingness and hands-on approach to learn new things

What does ChargeX offer to you?

- Highly motivated team with flat hierarchies and fast-forward decision making
- Attractive equity/salary combination for a long-term career at ChargeX
- State-of-the-art equipment and team events on a regular basis
- A shitload of fun while making the world a better place

Now we need you. Be an essential part of our tech-startup ChargeX and our urban mobility revolution. Interested in joining us? Send us an e-mail why you have to be part of ChargeX.
