

Bachelor / Master Thesis

Thesis Charging Experience & UX Design (f/m)

Location: Munich

What's our story?

It all started in 2017. Disappointed by the slow expansion of e-mobility we created a whole new approach to electric vehicle charging. Our award winning and patented charging technology is the missing piece for mass electrification. Together with major automotive manufacturers we are currently getting our product ready to market. ChargeX was founded by passionate entrepreneurs and engineers. Our mission is a more sustainable way of transport. To make this green future happen we need your hands-on support and ideas to make our vision reality.

What will be your job?

- Use Design Thinking or comparable tools to identify the pain points when using a Destination Charger
- Develop a mobile/hardware interface for our charging solution on your own responsibility
- Test and implement new features together with our customers and our product team
- Manage the lean implementation of your interface and keep track of serving user and business interests

What do we expect from you?

- Passion developing an outstanding user experience when using our product
- Student in UX Design or a comparable education where this topic is relevant
- Knowledge about programming Apps & Chatbots for fast rapid prototyping
- Willingness and hands-on approach to learn new things

What does ChargeX offer to you?

- Highly motivated team with flat hierarchies and fast-forward decision making
- Attractive equity/salary combination for a long-term career at ChargeX
- State-of-the-art equipment and team events on a regular basis
- A shitload of fun while making the world a better place

Now we need you. Be an essential part of our tech-startup ChargeX and our urban mobility revolution.
Interested in joining us? Send us an e-mail why you have to be part of ChargeX.
